

SAVE THE DATE

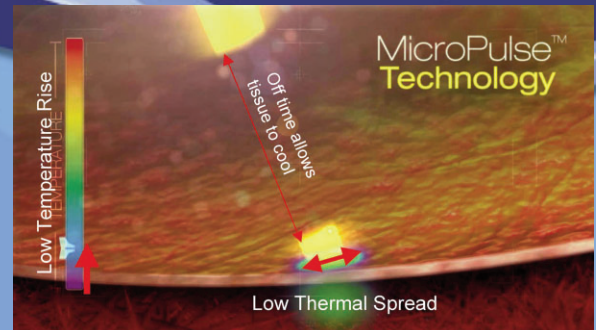

IRIDEX Speakers' Forum at AAO Booth # 5317

Sunday October 25

Talks begin at 10AM

Join your colleagues to learn about:

- 577 nm true-yellow solid-state technology. The first visible laser to incorporate MicroPulse™ Technology
- 810 nm MicroPulse Technology for the management of retina and glaucoma disorders

MicroPulse Technology allows the tissue to cool between pulses, resulting in less thermal spread.

Visit www.iredex.com/speakersforum
for an up-to-date schedule of presentations.
